

Moments of happiness

The Saljol Carbon Rollator in

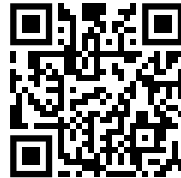

Copper Red

Moments of happiness

The walk is arduous, and Gina has to take frequent breaks. During one of these pauses, a lady shows her a rollator brochure. Summoning her courage, she calls customer service for advice. Just a few days later, she's out and about with her new rollator in a stunning copper colour – on a pleasure tour! Finally back to the coffee roastery to get her favourite coffee and catch up with her friend. What an experience!

Watch Gina's full story:

This characterises the Saljol Carbon Rollator

Weighs just a super-light 5.6 kg while maintaining excellent stability

Top quality down to the smallest detail – you'll feel the difference!

Enhanced safety with the unique grinding brake
